It was kept up till about three o,clock. when the Colonel ordered the bugle to be sounded for the regiment to fall into line, without guns and accourtements, and in fatigue dress. We were all puzzled to know what was to be done, when we marched out in the woods near the camp, and divided into two armies the right wing representing one army and the left wing representing the other. We were then drawn up in line of battle and, after throwing out skirmishers, the Colonel ordered us to "load at will," when every man commenced making snow-balls. After two or three rounds each we were ordered to come to "attention." Lieut. Col. Jackson had command of the right wing, and Col. Mundy of the left. The bugle then sounded for forward march when the wings advanced toward each other. When within thirty paces they commenced throwing snow-balls. They fought one round, when the bugle sounded to cease firing and to rally into line, Col. Mundy's wing retiring with Lieu. Col. Jackson a prisoner. After making a few snow-balls, we went at them again,

On our way I stopped for a moment, where six rebel Perfumeries, Hair Oils, &c. doctors were acting as surgeons, and pris-oners. I conversed with Dr. Morton of Nashville, who seems to be a gentleman of refinement, and profanity. I noticed a rebel cap on his bead. "Are yon," said I, "in the service of the United States?" "I have recently been detailed to that service," was the pleasant reply. He spoke good humoredly of his capture, and condemned the conduct of the rebel cavalry, while he complimented our army. A single dose generally relieves pain, nausea, or any uneasiness after eating.

As a Carminative, it is particularly valuable to parents. Its timely use pre-vents many a serious illness, and many an anxious night to the mother over the bed of her child. A single dose will almost instantly relieve colic, arising from acidity of the stomach or indiges tion. A German lady informs us that a part of a battle cured her child of Summer Complaint, after the physician had vainly tried to check the disease. A well known citizen states, that by its use he was cured of that dreadful disease,
